

To my fellow Suffolk breeders,

I am once again running for director in District 4, a position I do not take lightly. First and foremost, I feel it is the duty of every director to represent every breeder from their district and recognize each breeder's importance to the success of our association. In today's economy we have to open our eyes and realize that times are changing; we cannot continue to operate in the manner we have for the past several decades. Having been born and raised with Suffolks, I have seen the transitions our breed has undergone and I feel I must dedicate myself to the betterment and advancement of our breed.

MacCauley Suffolks is a family operation involving my wife, Betsy and our two sons, Chris and Kyle. We raise over 200 Suffolks on our farm in Atglen, PA and exhibit our Suffolks across the US. During my travels I have had many opportunities to visit with breeders throughout the states and have discovered that each and every breeder has an opinion worth hearing!

If elected I will do everything I can to help unify and strengthen OUR association through these changing times. We are in the midst of hiring a new secretary and this person has very large shoes to fill; however, with the right support from the board I feel this can be an opportunity for positive changes and growth.

If you feel my past contributions to the breed and my current desire to once again serve are the right path for the Suffolk breed, please vote for Bill MacCauley as a director in District 4.
