

Hello, my name is Richard Schambow. I am a veterinarian and have been raising Suffolks for over 30 years. I now maintain a flock of approximately 40-50 ewes with my wife Judy and children Tom and Rachel. Over the last three years, I have served on the USSA board as a director and treasurer and have enjoyed working with all of my fellow board members. I am excited because we as a board have been able to bring a deficit of nearly 40,000 a year to a near breakeven point, have created a more efficient website, and have been able to update the office with the newest technology and computer software. I am also proud of the support that we have been able to give the Junior Association, and I enjoyed helping to host one of the largest UJSSA shows ever here in District 3, Janesville, Wisconsin. I think we have a lot going for our association right now, and I pledge to work for District 3 in a positive and constructive manner.
